Health care resource allocation made easier.

WHAT WE OFFER

Cloud-based software to guide an organization through the decision making processes from conception, to development and implementation.

Hands-on consulting, including training, facilitation and capacity building through collaboration and mentored support.

Ability to track progress year-over-year, including report generation.

Custom-fit solutions to meet the needs of your organization.

Our team has extensive experience in priority setting, health care management and software design.

Operating our services from regional offices in Canada, the US and the UK, we offer local knowledge within a global context, creating key partnerships to ensure your success.

RESOURCE ALLOCATION SOLUTIONS THAT WORK FOR YOUR ORGANIZATION.

With an average of over 15 years' experience in priority setting, our expertise focuses on how best to manage resources within the health care context. Our team members have published and presented widely on priority setting within both academic and organizational settings and it is this leading edge knowledge we bring to the field of priority setting in health care.

We have successfully assisted organizations from around the world with our unique set of expertise and tools that address budgetary challenges with concrete solutions. Our philosophy is to provide decision makers with easy-to-use tools, on-site support and mentored collaboration so organizations can provide the best care possible with the resources available.

"I have never used anything like Prioritize Software before - quick to set up, easy to use and up and running in no time right out of the box!"

— Vancouver Coastal Health employee
